JavaScript tracking snippet

JavaScript snippet

Show on click event

Make sure the following snippet of Javascript is present on every page of your website right before the closing "head" tag.

You only need to add this snippet once, even if you plan to have multiple forms.

```
<!-- MailerLite Universal -->
<script>
  (function(w,d,e,u,f,l,n){w[f]=w[f]||function(){(w[f].q=w[f].q||[]).
    .push(arguments);},l=d.createElement(e),l.async=1,l.src=u,
    n=d.getElementsByTagName(e)[0],n.parentNode.insertBefore(l,n);})
    (window,document,'script','https://assets.mailerlite.com/js/universal.js'
    ml('account', '2387241');
</script>
<!-- End MailerLite Universal -->
```

Copy

Book Appointment

Connect on LinkedIn

Get your step-by-step beginner roadmap to start Cloud, Infrastructure, and AI engineering with WirfonCloud Academy.

Change the “book a free appointment..... “ to “Get your step-by-step beginner roadmap to start Cloud, Infrastructure, and AI engineering with WirfonCloud Academy.”

Remove the “connect on LinkedIn”

Change the text “Book Appointment” to “Click to Get Your free RoadMap”

The button should link to the popup code we had earlier.
